

When You Fill Out a Form on Our Website

The information you provide, including personal data such as name and job title, may be stored in our customer database if required to maintain further contact with you as it relates to the inquiry you've submitted. When we gather this information, it is to better understand your needs and properly service your inquiry.

We may use the information to improve our products and services. If you select a box on the form indicating your desire to be added to our mailing list, we may periodically send promotional emails via the email address you provided about new products or other information we think you may find interesting. You will always be provided an option to opt-out of these communications.

If we enter a business relationship with you because of your inquiry, you may also receive periodic promotional emails tailored to your areas of interest. You will always be provided an option to opt-out of these communications.

We may also use your information to contact you by email, telephone, or mail for market research purposes.

We may use the data to help us assess the effectiveness of marketing campaigns.

We may use the data to help us improve the design of our website and make it more usable for you.

Technical data provided is of a general nature and is based on laboratory test conditions. Dymax does not warrant the data contained in this bulletin. Any warranty applicable to the product, its application and use, is strictly limited to that contained in Dymax's standard Conditions of Sale. Dymax does not assume responsibility for test or performance results obtained by users. It is the user's responsibility to determine the suitability for the product application and purposes and the suitability for use in the user's intended manufacturing apparatus and methods. The user should adopt such precautions and use guidelines as may be reasonably advisable or necessary for the protection of property and persons. Nothing in this bulletin shall act as a representation that the product use or application will not infringe a patent owned by someone other than Dymax or act as a grant of license under any Dymax Corporation Patent. Dymax recommends that each user adequately test its proposed use and application before actual repetitive use, using the data contained in this bulletin as a general guide.
